POPE FRANCIS CALLS FOR 'ECOLOGICAL CONVERSION'

“It must be said that some committed and prayerful Christians, with the excuse of realism and pragmatism, tend to ridicule expressions of concern for the environment. Others are passive; they choose not to change their habits and thus become inconsistent. So what they all need is an ‘ecological conversion,’ whereby the effects of their encounter with Jesus Christ becomes evident in their relationship with the world around them. Living our vocation to be protectors of God’s handiwork is essential to a life of virtue; it is not an optional or a secondary aspect of our Christian experience.”
